VICTOR AUGUSTINE INIEKE

JUNIOR SOFTWARE DEVELOPER | FRONTEND • BACKEND • FULL-STACK

Port Harcourt, Nigeria | Open to remote opportunities | 0707 172 4882 | iniekevictor@gmail.com

GitHub: github.com/VeekAustin | Portfolio: my-portfolio-vert-nine-74.vercel.app

PROFESSIONAL SUMMARY

Junior JavaScript/TypeScript developer with hands-on experience building and deploying web applications across frontend and backend environments. Skilled in developing responsive interfaces with React and Next.js, building REST APIs with Node.js and Express, and working with MongoDB. Familiar with JWT authentication, password hashing, protected routes, API integration, automated testing, Git workflows and deployment. Holds a B.Eng. in Electrical/Electronics Engineering (Second Class Upper) and is seeking junior frontend, backend or full-stack developer opportunities.

TECHNICAL SKILLS

Programming: JavaScript, TypeScript

Frontend: React, Next.js (App Router), Tailwind CSS, responsive design, reusable components

Backend: Node.js, Express.js, REST API development, JWT authentication, bcrypt, NextAuth/Auth.js, error handling

Databases: MongoDB Atlas, Mongoose, Prisma

Testing & Tools: Vitest, Postman, Git, GitHub, CI, Vercel, Render

PROJECTS

Trackr — Full-Stack Progress Tracker (Capstone)

Live: trackr-web-sigma.vercel.app | Code: github.com/VeekAustin/trackr-web and trackr-api

- Built and deployed a Next.js/TypeScript frontend and an Express REST API connected to MongoDB Atlas.
- Implemented JWT authentication, bcrypt password hashing, protected routes and role-based access to keep user data private.
- Modelled User, Entry and Track data, implemented cascade deletion and global error handling, and verified API behaviour with Postman and Vitest.
- Configured a CI build that passed.

Personal Portfolio

Live: my-portfolio-vert-nine-74.vercel.app

- Developed a responsive portfolio website using Next.js App Router and Tailwind CSS.
- Implemented a custom mobile navigation menu and typing animation, then deployed the site on Vercel.

Static Landing Page — SaaS Page Rebuild

Live: next-js-static-clone-page.vercel.app

- Recreated a multi-section marketing page using Next.js and TypeScript without relying on a UI kit.
- Structured the interface with reusable components and responsive breakpoints.

Posts API and Blog Platform REST API

Deployment: Posts API hosted on Render

- Developed CRUD REST APIs using Express, TypeScript and MongoDB.
- Deployed the Posts API on Render and resolved an incorrectly formatted MongoDB Atlas connection string and environment configuration.

EDUCATION & TRAINING

B.Eng., Electrical/Electronics Engineering (Second Class Upper) — University of Uyo

Full-Stack Development (MERN) — Nextcollege.dev
